

M. VISHNU VARDHAN REDDY

Associate Software Engineer | Java Full Stack Developer

+91 8074407095 | vishnumatamala10@gmail.com | Andhra Pradesh, India | github.com/vishnu-reddy000 | linkedin.com/in/matamalavishnu

TECHNICAL SKILLS

LANGUAGES

Core Java (OOPs, Collections, Exception Handling, Multithreading), JavaScript

FRAMEWORKS

Spring Boot, Spring MVC, Spring Data JPA, Hibernate

BACKEND

REST APIs, JDBC, Servlets, JSON, MVC Architecture, CRUD Operations

FRONTEND

React.js, Next.js (SSR/SSG), HTML5, CSS3, JavaScript (ES6+)

SECURITY

Spring Security, JWT Authentication

DATABASE

MySQL, PostgreSQL, Oracle SQL

TOOLS & BUILD

Git, GitHub, Maven, Postman, Bruno, Eclipse, STS, VS Code

DEPLOYMENT

Railway, Render, Vercel, Netlify, Apache Tomcat

PRACTICES

Agile, Scrum, CI/CD, Responsive Web Design, Figma (Basic)

CORE STRENGTHS

Java Full Stack

REST API Design

Spring Security

DB Optimization

Agile/Scrum

Multi-Tenant Arch.

EDUCATION

B.Tech – Electrical & Electronics Engineering

Sreenivasa Institute of Technology & Management Studies, JNTU-A

2020 – 2024 | CGPA: 7.66

Intermediate (MPC)

Sri Chaitanya Junior College, Andhra Pradesh

2020 | CGPA: 8.73

Class X (SSC)

Camford English Medium School

2018 | GPA: 8.7

PROFESSIONAL SUMMARY

Java Full Stack Developer with 1 year 5 months of experience designing, building, and maintaining enterprise-grade web applications using Java, Spring Boot, Spring MVC, Spring Data JPA, and Hibernate. Skilled in building secure, scalable REST APIs with Spring Security and JWT Authentication, backed by MySQL and PostgreSQL, with growing expertise in React.js and Next.js for modern frontend development. Experienced in Agile/Scrum teams, using Git, GitHub, and Maven for version control and build automation. Strong foundation in clean architecture and object-oriented design, with a track record of improving application performance and delivering production-ready features on schedule.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

April 2025 – Present

Speshway Solutions Pvt. Ltd.

- **Engineered** and maintained enterprise-level Java Full Stack applications using Spring Boot, JavaScript, HTML, CSS, REST APIs, and MySQL to support core business operations.
- **Developed** key modules for a Smart Office Management System, streamlining internal workflows and improving operational efficiency across departments.
- **Designed** a Multi-Tenant SaaS-based CRM platform with role-based access control and tenant-specific configurations, enabling scalable multi-client deployment.
- **Integrated** RESTful APIs to enable seamless frontend-backend communication and third-party system connectivity.
- **Optimized** database queries to reduce page load and API response times while collaborating with cross-functional Agile teams to deliver production-ready features on schedule.
- **Managed** source control and deployment workflows using Git, GitHub, and Maven alongside cloud-based deployment pipelines, ensuring clean releases and repeatable builds.
- **Diagnosed** and resolved production issues through debugging and performance tuning, enhancing application stability and reliability.

SELECTED PROJECTS

Multi-Tenant SaaS CRM Platform

Java · Spring Boot · REST APIs · MySQL · HTML/CSS/JS

- Built a multi-tenant architecture with role-based access control and tenant-specific configurations, enabling a single platform to scale across multiple client organizations.
- Developed RESTful APIs for frontend-backend communication and optimized MySQL queries for performance.
- Delivered isolated data handling per tenant, supporting scalable, multi-client SaaS deployment.

Smart Office Management System

Java · Spring Boot · Servlets · JDBC · MySQL · HTML5/CSS3

- Built modules for employee attendance tracking, leave management, task assignment, and department-wise reporting.
- Designed a responsive full-stack UI, deployed on Apache Tomcat with persistent MySQL storage.
- Centralized office administration, improving visibility into attendance and workload across departments.

Library Management System

Java · Spring Boot · REST APIs · MySQL · HTML/CSS/JS

Book catalog, member registration, and issue/return workflow with automated fine calculation; implemented REST APIs for catalog search and record management with optimized MySQL queries, digitizing manual library operations.

Typing Master

Java · Spring Boot · MySQL · HTML/CSS/JS

Real-time WPM and accuracy tracking with difficulty levels, error highlighting, score history, and leaderboard; built REST APIs and MySQL schema with dynamic, JavaScript DOM-driven UI feedback.

Placement / Interview Preparation Platform

Next.js · React.js · JavaScript · REST APIs

Topic/company-based question bank, mock tests with instant scoring, progress dashboard, bookmarking, and resource library; built with React Hooks, SSR, and REST API integration for fast, SEO-friendly pages.
